2. GBRC has taken out Public Liability Insurance to cover training events, home blitzes and social events. This insurance is administered by O'Leary Insurances Ireland and underwritten by Allianz Ireland (Policy Number GYLIA 5522908). This does not cover injuries during playing rugby by covers any injury that "arises solely from a defect in the insured's premises property and equipment owned or occupied by the insured"
3. The MOST COST EFFECTIVE INSURANCE to cover for minor or routine injuries occurring during the playing of rugby is the insurance administered through your school. In general the cost of this insurance is low. GBRC STRONGLY RECOMMENDS that parent enrol their children in such school insurance programs.
4. In general private health insurance policies will cover injuries which occur during playing sports. Please check with your insurer for further details.
